PROFESSIONAL SUMMARY

BCA student focused on cybersecurity, penetration testing, and vulnerability assessment. Developing practical skills through hands-on security labs in Linux, networking, reconnaissance, web security, and security tools.

EDUCATION

Bachelor of Computer Applications (BCA) **2025 –ongoing 2028**

Maharishi University of Information Technology, Lucknow

TECHNICAL SKILLS

Cybersecurity: Penetration Testing, VAPT, Web Security, Reconnaissance, OSINT

Security Tools: Nmap, Burp Suite, Wireshark, Nuclei, ffuf, Amass, Nikto, Metasploit, Shodan, Sherlock, ExifTool

Web Security: XSS, CSRF, SQL Injection, IDOR, CORS, HTTP/HTTPS, Security Headers, TLS

Networking: TCP/IP, OSI Model, DNS, ARP, IPv4, IPv6, Network Reconnaissance

Operating Systems: Linux, Kali Linux, Windows, Bash, Command Line

Programming: C, Java, Python, JavaScript, HTML, CSS, SQL

CYBERSECURITY PROJECTS

Web Security Labs

- Practiced XSS, CSRF, SQL Injection, and web security concepts in controlled lab environments.
- Used Burp Suite for HTTP request interception and web security testing.

Network Reconnaissance

- Practiced network scanning, port discovery, and service enumeration using Nmap.

Passive Reconnaissance

- Used Amass, Shodan, and OSINT techniques for passive reconnaissance and subdomain discovery.

Web Fuzzing

- Used ffuf for directory and endpoint discovery in authorized web application labs.

Network Traffic Analysis

- Used Wireshark to capture and analyze network traffic and HTTP communication.

CERTIFICATIONS

- Cyber Security Course – Tutedude
- Linux Course – Tutedude
- Introduction to Cyber Security – Simplilearn SkillUp
- Cyber Security Professional Certificate – Unified Mentor

CORE CYBERSECURITY AREAS

- Penetration Testing and VAPT
- Web Application Security
- Linux and Command Line
- Network Security and Reconnaissance
- Vulnerability Assessment
- OSINT and Passive Reconnaissance
